

ERC Activity Report for 2025

In 2025, the European Regional Committee (ERC) held several online meetings devoted to the organization of future Bernoulli Society events in Europe. During these meetings, the Committee selected the Scientific Committee for the 2026 European Meeting of Statisticians (EMS), which will take place in Lugano.

The ERC also reviewed applications to host forthcoming conferences. It approved the application from Vilnius to organize the 2026 European Young Statisticians Meeting (EYSM) and accepted the application from the University of Warwick to host the 2027 European Meeting of Statisticians.

Chair Małgorzata Bogdan
